# ATLAS ACTIVE

*True all-rounder.*

The Hapro Atlas Active is a solid family carrier that is perfect for anyone looking for an attractively designed carrier at a good price. Whether you opt for a single bike rack or a carrier for transporting multiple bikes, this fully featured entry-level model has everything a bike carrier should have. Easy to use, simple mounting system, rim protection on the quick release buckles and theft prevention thanks to locks on the carrier and on the bike frame clamps. By folding the frame, the carrier is easily and compactly stored. And... electric bikes are also no problem at all for this all-rounder!

#### Types:

The Hapro Atlas Active is available for 1, 2, 3 and 4 bicycles.

#### Frame holders:

The frame holders can be easily repositioned for the perfect fit and provide optimum stability. Each of the frame holders has a separate lock.

#### High weight capacity:

With its high weight capacity also heavier bikes, such as electric bikes or heavy mountain bikes, are no problem for the Hapro Atlas Active.

#### Tilting system:

The Hapro Atlas Active is designed to tilt, allowing you access to the trunk of the car without removing the bikes.

#### Easy-Grip mounting system:

The Hapro Atlas Active is equipped with a new mounting system that allows the carrier to be mounted easily and quickly on the towbar.

#### Suitable for any bike:

E-Bike? Wide wheels? No problem! Thanks to the wide platform, the wide wheel holders and the extra-long and adjustable quick-release straps you can mount almost every bike on the carrier.

# ATLAS PREMIUM

*Reliable powerhouse.*

The Hapro Atlas Premium is the reliable partner for adventurous family trips. This new Atlas Premium model is further developed and based on our award winning Atlas Premium model. This carrier has already been voted Best Buy on several occasions by the Dutch auto club ANWB, where it was praised for its ease of use when mounting on the tow bar and its stability. So, of course we left those aspects untouched! What we did change? With some minor improvements, we made the carriers even easier to use, for more convenience and enjoyment when travelling.

#### Types:

The Hapro Atlas Premium is available for 2 and 3 bikes

#### Frame holders:

The frame holders can be easily repositioned for the perfect fit and provide optimum stability. Each of the frame holders has a separate lock.

#### E-Bike

#### High weight capacity:

With its high weight capacity also heavier bikes, such as electric bikes or heavy mountain bikes, are no problem for the Hapro Atlas Premium. Wide wheels? That's no problem either thanks to the extra-long and adjustable quick-release straps.

#### Tilting system:

The Hapro Atlas Premium is designed to tilt, allowing you access to the trunk of the car without taking the bikes off.

#### Master-Grip mounting system:

The Hapro Atlas Premium is equipped with a quick mounting system that secures the carrier with just a flick of the wrist on any common tow bar. The new, ergonomic handle makes it even easier to firmly attach the carrier.

#### Foldable light units:

The new, attractively designed light board gives the bike carrier a sleek and modern appearance. Thanks to the foldable light units, the number plate can be easily slid in place, while at the same time the lights are protected when storing the carrier.

# ATLAS PREMIUM XFOLD

*Ultimate ease-of-use.*

The robust Hapro Atlas Premium XFold is THE revolutionary top of our new bike carrier range. Premium quality and innovation go hand in hand with ultimate ease-of-use, resulting in a bike carrier for every bike and every adventure. The Atlas Premium XFold is fully foldable and is therefore very easily mounted on the tow bar, and compact when stored. The totally new and innovative mounting system allows the bike carrier to be attached on the tow bar with just a single movement. Bringing the bikes along has never been easier!

#### Types:

The Hapro Atlas Premium XFold is available for 1 and 2 bikes

#### Premium-Grip mounting system:

Mounting the carrier on the tow bar is as easy as 1-2-3. Place, lock, secure, and you're ready to go! Thanks to the stability of the carrier after placing it on the tow bar, you can make any necessary adjustments easily and quickly with the adjustment knob. The lock on the mounting system ensures that the bike carrier cannot be detached without a key.

#### E-Bike

#### Suitable for any bike:

E-Bike? Wide wheels? No problem! Thanks to the wide platform, the wide wheel holders and the extra-long and adjustable quick-release straps you can mount almost every bike on the carrier.

#### Fully foldable:

The Hapro Atlas Premium XFold is fully foldable and therefore very easy to mount on the tow bar, and compact when stored. This makes the carrier very user-friendly. Thanks to the wheels, you can roll the folded carrier effortlessly from A to B.

#### Tilting system:

The Hapro Atlas Premium XFold is designed for easy tilting, even with bicycles in place. This way, you can access the trunk without having to remove the bikes.

#### Maximum stability:

To ensure maximum stability of the bikes on the carrier, the wheel holders are fitted with an additional attachment to the front wheel.

# GIRO

*Stylish transport.*

The Hapro Giro allows you to transport your bikes on the roof of your car, eliminating the need for a tow bar. This foldable aluminium carrier holds any bike securely and is excellent in combination with a Hapro roof box or multiple Hapro Giro's.

**Types:**  
The Hapro Giro is available for 1 bicycle.

**Fit-Lock mounting system:**  
Any round bicycle frame with a diameter of 22-80 mm or oval bicycle frame of up to 80 x 100 mm is simply and securely locked with the Fit-Lock system.

**Mounting on roof racks:**  
Suitable for aluminium roof racks (with T-profile) as well as for steel roof racks (max. H: 23mm x W: 22 mm)

**Sleek and slender:**  
With no load, the Hapro Giro is easily folded for lower air resistance and offers even then an aesthetic appearance.

**Theft protection:**  
The Hapro Giro is equipped with a lock on the Fit-Lock mounting system

**Fast and flexible:**  
The adjustable wheel holders can easily be shifted in the correct position, allowing bike wheels to be safely secured at an optimal distance.

# Extra attention

*Hapro bike carriers; fully equipped.*

## Mounting systems.

### Easy-Grip:

The Hapro Atlas Active is equipped with the simple Easy-Grip mounting system. After mounting the carrier on the tow bar, it remains stable in the position it was placed, making it very easy to further mount and fine tune the carrier by using the rotating knob and lever.

### Premium-Grip:

Thanks to the Premium-Grip quick mounting system, mounting the Atlas Premium XFold on the tow bar is as easy as 1-2-3. The carrier is immediately secured tightly by pushing down the handle. By turning the red knob the carrier can be optimally adjusted for perfect fit. The green accent and reference stripes on the protective cover indicate whether the carrier is safely secured.

### Master-Grip:

The Hapro Atlas Premium is equipped with the Master-Grip quick mounting system. An easy system that, after placing the carrier on the tow bar, immediately secures it when pulling the lever upwards. With the blue knob underneath the mounting system, the carrier can be optimally adjusted for perfect fit.

### Fit-lock:

Thanks to the Giro's thoughtful Fit-Lock system, bikes are quickly and securely mounted. The fastening system locks around the frame of the bike and opens or closes easily by rotating the handle and sliding it up or down.

## Accessory.

### Loading ramp:

Convenient loading ramp for placing your bikes more easily on the bike carrier. Available for all Hapro Atlas Active, Atlas Premium and Atlas XFold models.

## Clever accents.

### Accented colours:

Our Hapro bike carriers are equipped with the beautiful accented colours bright blue and elegant gray. These are not only aesthetically pleasing, but also functional. These accents indicate where action needs to be taken. Smart and stylish!
